

METJAN

Sitagliptin/Metformin
50/500 mg - 50/1000 mg

Your Health, Our Ambition

Managing diabetes is an art
Additive and substantial glycemic control
Minimizing pill burden
Improved patient compliance

METJAN

Sitagliptin/Metformin
50/500 mg - 50/1000 mg

Metjan lowers glucose in different pathway

SITAGLIPTIN

INCREASES INSULIN
PRODUCTION

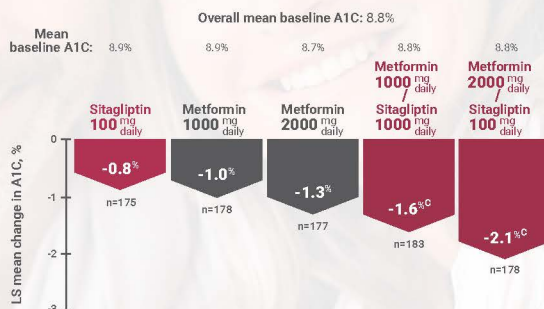

DECREASES
HEPATIC GLUCOSE
OVERPRODUCTION

AND WORKS IN A GLUCOSE-DEPENDENT MANNER

For adults with type 2 diabetes:

Metjan target 3 key factors to lower blood sugar

1. Help your pancreas make more insulin
2. Help your body more effectively use the insulin that it makes
3. Help decrease excess sugar that your liver makes
